

VIOLIN BEGINNINGS CLASSES AT MASON COMMUNITY ARTS ACADEMY!

Welcome to Violin Beginnings! We are so excited that you've chosen to begin your violin journey with us at Mason Community Arts Academy. So we can get started right away, ***please bring your child's violin with you to the first class!***

Violins come in all different sizes, from a full-size (adult size) violin, to a 1/32 size for the tiniest beginner. Having the right size violin is crucial for the development of violin technique. It's important to ***take your child to the violin shop with you*** so that they can measure your child and ensure the right size. Do not rent or purchase a violin without having it sized to your child!

We understand that families are looking for an affordable way for their child to explore violin, and therefore ***we recommend renting rather than purchasing an instrument.*** Our recommended vendors all have affordable rental programs that will include basic maintenance of the instrument and allow you to earn rental credits to apply toward the next size of violin or toward the purchase of an instrument down the road. You should expect to pay \$15 - \$40 a month for a good rental violin.

DO NOT PURCHASE A VIOLIN FROM THE INTERNET!! It can be tempting to purchase an inexpensive violin from the internet, but these violins are not good quality instruments and will end up costing you much more money in repairs to get them playable. A well-made violin in good repair will help your child create a beautiful sound and will be a wonderful companion on their musical journey. A badly made violin will go out of tune easily, be impossible to create a good tone on, and create a very frustrating experience for your child. In order for your child to have the best experience, we ask that you rent or purchase an appropriately sized violin from our trusted vendors.

A word of warning: It can be very tempting for parents and children to open the violin case at home and try to play from the first day they get it. To ensure the development of excellent violin technique, we ask that you leave the case closed so that the first time they hold the instrument can be under professional guidance. Allowing them to play with it at home can actually be detrimental to the learning process.
